GUARDSMEN ARRIVE AT CAMP GRAYLING

GEN. WILSON AND STAFF ARRIVE WEDNESDAY

The summer camp of Michigan National Guard at the Hanson State Military reservation is just about ready insofar as attendance is concerned. Different from former years, the camp this year has been strung out over a period of six weeks instead of three, thus at no one time are all contingents of the guard in camp.

The 106th Cavalry has been here since the 23rd, and will leave Sunday next. Other organizations have been arriving and other are still to come. Those already accounted for are as follows:

The Service company of the 126th infantry of Grand Rapids less band arrived in camp Wednesday morning. Also at the same time the Service Co. of the 125th Infantry of Detroit, less band. The 107th Medical regiment of Detroit, with their band; the 32nd Division special troops from Detroit, Midland and Ypsilanti, and one officer and three men for the Air service, all arrived Wednesday.

This morning (Thursday) Col. Pickert's famous 182nd Field Artillery regiment arrived in camp.

An advance party of the 119th Field Artillery is due to arrive Friday morning. On Saturday all organizations of the Guard will be in camp with exception of the 119th F. A., which is scheduled to arrive next Monday. The 106th Cavalry is scheduled to leave camp Sunday night.

Major Gen. Guy M. Wilson and his staff of the 32nd Division arrived in camp Wednesday night. Major Gen. Paul B. Malone, commanding officer of the 6th Corps area, and wife drove thru Grayling Monday last and were guests at the camp over night.

The Cavalry band will give a concert at the Court yard Friday night. A good program has been prepared for the people of Grayling and we know that it is going to be appreciated just as all the military concerts are appreciated and welcomed.

Among the many improvements at the flying field this year is the lettering of one of the large mess halls with the word Grayling painted on the roof in letters six feet in height. The name may be read from an altitude of more than a thousand feet.

BUICK CAR IS 25 YEARS OLD

SILVER ANNIVERSARY MARKED WITH NEWEST MODEL AUTOMOBILE

The Buick Motor Car company celebrated its silver anniversary Saturday of last week by introducing its 1928 model—a departure in lines from the present style model.

The car, while a distinct new type, resembled somewhat the two higher priced line of cars made by General Motors.

A new radiator and front end, showing lavish use of chromium, and on which the Buick trade mark was removed from beneath the radiator cap to the honeycomb was the most noticeable departure from the old style.

New fenders, wheels, tires and hubs and a re-designed running board with the body bulging beneath arched windows were other features.

The valve-in-head six-cylinder en-

ST. MARY'S SUPPER

August 9th, 1928

Following is the menu for the supper that will be served at St. Mary's fair at the school gymnasium on August 9th:

MENU
Ham Veal
Scalloped Potatoes Potato Salad
Baked Beans
Salad—Cucumber, Tomato, Lettuce
Bread and Butter

The price is only 50c and will be served in the old fashioned way. Mrs. J. E. Bobenmoyer is in charge of the supper. Don't miss it.

"CAMPFIRE" FELLOWSHIP CIRCLE

There will be a "Campfire" Fellowship Circle for Sunday School superintendents, teachers, pastors and friends of Crawford, Ogemaw, Oscoda and Roscommon Counties at Grayling Camping Grounds near base ball park Friday, August 3rd from 8 to 10:30 p. m., Eastern Standard Time.

There will be fellowship songs, games and exchange of experiences and outdoor worship. Bernard Cogan, fun maker and State Sunday School speaker, will be there. Hats furnished. They will roast wieners.

FOURTH ANNUAL DANCE

The 119th Hospital Company will give their fourth annual dance at the School Auditorium Saturday, August 11th. Every year for the last four this company has conducted a dance for the pleasure of the enlisted men and the people of Grayling. These parties have always proved a success and have been much enjoyed by those attending. Every year a beautiful prize has been given to the lady and also to the gentleman holding a lucky number. Good music is always assured. This dance is complimentary to the ladies.

ADVERTISEMENTS FOR BIDS FOR THE PAVING OF MICHIGAN AVENUE IN THE VILLAGE OF GRAYLING

Sealed proposals will be received at the office of the Village Clerk, Grayling, Michigan, until 6:30 P. M. Central Standard time August 6th, 1928, for furnishing materials and labor for curb and gutter and concrete pavement on Michigan Avenue in the Village of Grayling. Plans and specifications may be obtained at the office of the Village Clerk.

A certified check for \$500.00 payable to the Village Treasurer must accompany each proposal as a guarantee that the successful bidder shall enter into contract as specified in the proposal.

Work is not to start on this improvement until Sept. 1st, 1928.

ROY O. MILNES, Village Clerk.

zine was retained, but improved, the company stated. It was said to develop one-fifth more power than the 1928 model.

One of the new models is on display at the Schoonover & Hanson sales rooms, where it is attracting a lot of attention from tourists as well as local people. Mr. Schoonover says he is taking a lot of pleasure in showing it. He says that no fewer than 1,500 people saw the car at his garage Saturday and Sunday.

14 CHEBOYGAN PLAYERS ATTEND GOLF TOURNAMENT SUNDAY

The third game of the series of six of the Northern Michigan Golf tournament was played here Sunday, the locals meeting the fast Cheboyganites. The final score was Grayling 19; Cheboygan 23.

The day was ideal and the grounds in excellent condition and everyone was in his pleasantest mood, just as one always is on a golf course. The first foursome teed off at about 1:30 p. m. and were followed by others just as soon as the fairways were cleared. Almost every player started out with good drives and it looked favorable for some excellent scores.

James Wood of Cheboygan finished the 18 holes with a score of 87 strokes. His out score was 46, and on the in score 41. His nearest rival was Dr. Rice, also of Cheboygan, with a score of 42 and 47—a total of 89. Emerson Brown of Grayling and Fred Miller of Cheboygan came across with 90 scores. Fr. Morrison of Grayling turned in a score of 92, playing the first round in 49 and the second in 43.

TONY ACHARD IN RACE FOR SENATE

ORGANIZATION BEING FORMED THROUGHOUT 28TH DISTRICT

Although late in starting, friends of Tony Achard, of Clare, are pressing a vigorous campaign in all of the 10 counties of the 28th. District for his nomination for State Senator at the September 14th. Primaries.

They are asking support for him on the grounds that the present incumbent of the office, Horatio S. Karcher of Rose City, who is running again, has had the office for three terms and that a change would be

TONY ACHARD

a courtesy to another part of the District and also lend new vigor to the representation at Lansing.

Achard is known statewide as a conservationist, and his friends declare his natural sympathy with the activities of that Department will offset to a considerable extent that fact that the District no longer has a member on the State Conservation Commission. A few years ago it had one, as was logical, inasmuch as its area is largely inclusive of the so-called "playground" of our State.

For many years Achard has been a member of the Clare City Republican Committee, and Chairman of his County Republican Committee. He is a member of the 10th Congressional District Republican Committee and a member of the Republican State Central Committee. At the Republican National Convention at Kansas City in June he was a leader in the movement to bring about the re-election of James E. Davidson, of Bay City, as National Republican Committeeman from Michigan.

Standard Six a slightly different mechanism—the "cam and lever type"—is used. It is also designed to eliminate friction.

In still another way Nash eliminates effort. The front end of the car must rest on steering knuckles. At these points Nash uses ball bearings, transmitting the weight of the car to the wheels with a minimum of friction. And to make control of the car still easier, use of an inclined king pin brings the axis of the knuckle pin and the plane of the front wheel to intersect at approximately road surface. This reduces road shocks to a minimum and controls the car perfectly at high speeds.

The entire steering mechanism is sturdy built with enlarged bearing surfaces to reduce wear. Adjustments are simple and easily accessible. A touch is sufficient to guide the car through labyrinths of traffic or straight as the crow flies over the open road.

Never before in the history of the automobile industry, according to engineers, has there been evolved a responsive, smooth and sure a system of steering as that featured on the new "400."—Adv.

A Thought for the Week

Heaven is the complete realization of our dearest and finest dreams. Leslie Colson was a soldier in the Canadian army. He had been ordered home, and in contemplation of the glad re-union, he wrote "When I Get Home". But there was to be no more engagement. In this fight he was killed. And here is the poem that suggests the foregoing thought of heaven.

When I come home, and leave behind
Dark things I would not call to mind;

I'll taste good food and homemade bread,
And see white sheets and pillows spread,

And there'll be one who'll softly creep
To kiss me, ere I fall asleep,
And tuck me 'neath the counterpane,

And I shall be a boy again,
When I get home!

When I come home from dark to light,
And tread the roadway long and white,
And tramp the lane I tramped of yore,
And see the village green once more,

The tranquil farm, the meadow free,
The friendly trees that nod to me,
And hear the lark beneath the sun,

'Twill be good pay for what I've done,
When I get home.

In darkest death—think you there was no light streaming from the windows of that other home to greet him? Our minds may doubt, but our hearts answer "Yes."

TRAP SHOOTERS MAKE GOOD SCORES

At the regular Sunday morning trap shoot at the Carl Mickelson range, a number of fine scores were hung up.

A. E. Michelson, shooting in the first squad, broke 25 straight targets. He was crowded by Esbern Hanson who broke 24, and Holger Hanson with 23.

In the second squad J. W. Hartwick made a straight score—25. T. E. Douglas blew into the limelight when he closed the last event with 24 out of 25. Ed. surely was in great form and gave a good account of himself. There will be no shoot here next Sunday as the Grayling trap shooters will go to Houghton Lake to contest in the 100 registered target event at that place. "Bill" Powell of Lake Margrethe, (who does not shoot) will accompany the Grayling shooters as mascot and publicity man.

At the state shoot at Lansing last week the Grayling shooters gave a good account of themselves. Esbern Hanson, O. W. Hanson, Nels Michelson, Frank R. Michelson, and C. P. Mickelson, each won cash prizes, and O. W. Hanson, Nels Michelson and Esbern Hanson won trophies.

IF IN DOUBT, AT-TEND CHEST CLINIC

Opportunity for a free chest examination will be given the residents of Crawford county on August 13-14 when the Michigan Tuberculosis Association will hold a tuberculosis clinic in Grayling. Arrangements for the clinic are now being made by Miss Beatrice Ferryby, clinic nurse, and Miss Ruth Eldred, field worker for the Michigan Tuberculosis Association.

This clinic, which is made possible by the sale of Christmas seals in Crawford county, is designed particularly to reach people who have the symptoms of tuberculosis, which are: a persistent cough, afternoon fever, loss of weight, and a continued tired feeling.

Children who have been in close contact with a tuberculous person should be brought to the clinic since the disease is highly contagious in early life. Adults who have been exposed should also play safe and be examined, because age does not bring immunity to tuberculosis.

Incipient cases are marked only rarely by all the symptoms, so the presence of any one of them warrants an examination. When found in the early stages, cure from tuberculosis is almost certain. It is the disregard of the early warnings which allows the disease to become far advanced and recovery doubtful.

At the last clinic held in Crawford county, 8 persons were found to have active cases of the disease and 3 were diagnosed suspicious. The doubts of 14 persons were cleared up when the clinic doctor's examination did not disclose any signs of tuberculosis in them.

Further arrangements for the clinic will be announced in this paper next week.

CARD OF THANKS

We kindly wish to thank all our friends in Grayling for the many tokens of sympathy that they have shown to us, in our sad bereavement of the unexpected loss of our dear husband and father.

HIS PERSONAL LIBERTY

Arthur G. Staples, veteran editor of the Lewiston (Maine) Evening Journal, printed in his book, "The Passing Age," the following letter from "A correspondent who seems to have taken some offense at our opinion on the duty of good people to obey the law."

All will agree that the following is an unusual presentation of the personal liberty theme.

To the Editor:
You seem to take a good deal of delight in telling other people how to live and perhaps that is your business, but it seems to me that you exceed your duty when you arrogate to yourself the right to inform all of those who may happen to enjoy an occasional drink of "Scotch" on

occasions.

I have been presented a fine bottle of Scotch whiskey for Christmas and it is before me as I sit at my typewriter and indite this letter to you. It bears the label of Sandy MacDonal—a good, fair, well-bodied liquor which I am assured was bought before the war and has been in my friend's cellar ever since. What right has any form of law to make me a criminal if I partake of this gift as it was intended that I do by the giver.

I claim that any such law is an invasion of my personal liberty. I notice that you have referred often in your excellent column to the so-called Bill of Rights which secures to all men and women certain inalienable rights to their personal liberty, which, as you say, are not inconsistent with the rights of others. How do you reconcile your statements?

I have just tasted of this bottle of liquor, I will confide to you, and I cannot see where or how I am invading the rights of any other person on earth. I find it excellent. It warms my stomach; it inspires my thought. I cannot feel, Mr. Editor, that I have wronged the community or added to the lawlessness of the general society in so doing. It makes me tired to be classed as a criminal for any such occasion, and I notify you that before long, there will be a revolt against the sort of stuff that you are writing.

Just to show my independence of such truck as you are writing, I have taken another drink of the aforesaid most jubilant Sandy MacDonal, and I will say to you that it is about as smooth a drink as a Criminal ever put into his system. The second drink, which I shall soon follow by a third, makes me more

certain that those who feel their systems require stimulants, should band together, organize, and start a campaign to do this Volstead business if it can be done.

Now, Mr. Editor, I am no bum and you can't make me a bum. I like a little drink now and then and I have taken a third or maybe it is a fourth and I am more than ever convinced that any man that doesn't is a big idiot. You say that this evasion of the law is producing a state of affairs in our Great and Glorious Country. You are wrong. This country is just as good as it ever was and was a great deal better country and I will leave it to you if it wasn't, when we had free rum.

I want to say to you that this Scotch is all right. A lot of it wouldn't do us harm. When we ended stimulus we need it. My grandfather was brought up on rum. They had it in the house all the time. They drank it freely and even the minister drank it when he came to our house. It's a pretty kind of a country when a minister is better than his grandfather. I can drink this sort of Scotch all day and not be no worse a citizen than I was before. I could drink this whole quast and nigger quiber an etchash.

Bue whay I wneat o f yiu is to remund yiu once agalaian and again that you arw' dead wrong in confenging evert bony who drinls as a bounhm. We ain't crimals. I will gat intjusing, that i wisg yiu a Bmeryt Chrlywax" an %haoyy Ner Yrarc" Yioydx O8Bd4t Swrv-1/4T.

County Treasurer Wm. Ferguson states that he just received a remittance from Auditor General Fuller covering the taxes on "The Pines." This tract of about 8,000 acres was placed upon the tax roll for the year 1927 but before the taxes were due it was sold to the State. There was no way in which to take it off the roll and it was a question whether or not Grayling township would get the money. It caused somewhat of a problem that could only be solved by the unwinding of considerable red tape. Auditor General Fuller succeeded in getting the matter straightened out all right so that it could be paid. The amount coming back to the township was about \$1,000.

OFFICIAL REPORT GRAYLING SCHOOLS

FINANCIAL REPORT OF SCHOOL DISTRICT NO. 1, 1928

Annual meeting of School District No. 1 was held on June 11th, 1928, at the High School building. Meeting was called to order by Dr. C. K. Keyport, president of the Board. Call of members was by Secretary, minutes of last annual meeting read and approved. Estimates of the Board for ensuing year read by Secretary as follows: For teachers wages \$15,000; for incidentals \$10,000 (including bond and interest); Fuel \$2,500; Officers salaries \$500, which on motion of Fred Welsh supported by Frank Barnett were accepted and adopted. A financial statement was presented by the Secretary which showed a balance in the several funds on June 11th of \$10,114.04.

Election of officers followed and Fred Welsh and Lorne Sparks were appointed tellers by the Chairman; officers of the election were sworn by O. P. Schumann. Whole number of votes cast were 43 of which Dr. C. K. Keyport having received a majority was declared elected for the full term of 3 years. A discussion of school affairs followed after which on motion the meeting adjourned.

Melvin A. Bates, Secretary.

W. F. Benkleman was called to Canada, Monday, by the sudden death of his father-in-law. Mrs. Benkleman was not strong enough to accompany him on the journey.

Mr. and Mrs. W. A. Masters, now of Bryan, O., are welcome visitors in our village, where they arrived Tuesday, but will hardly be here long enough to shake hands with all their friends.

One Peter Myers, who claims to have been working at Lewiston, stole a hand car at Lovell's Saturday evening, and was apprehended just above the junction as he was coming into the village. He pleaded guilty before Justice Mahon Monday morning, who said fifteen dollars or sixty days in Detroit.

Rev. Sheldon spent the greater part of last week in Tawas.

The cement walks in and around the school grounds are being built. They will be a good improvement.

The repairs on the big mill are nearly completed, and will start in a week as good as though new in every particular.

The demand for houses seems to grow stronger, notwithstanding the large number that have been erected this season.

Died—Wednesday, July 26, Nellie May, daughter of Mr. and Mrs.

Arthur Fox of this township, aged one year. The funeral was held at the M. E. church in this village, Saturday, Rev. J. J. Willits of Frederic officiating, and the burial took place at the cemetery in Pere Cheney.

Frederic Items
Prof. Bradley visited here Monday. Mrs. C. Wilbur arrived home last week.

Mrs. Terry is able to be up again after a long sickness.

Anna Jendron is visiting at Grayling, Lewiston, and Bay City this week.

The mill will soon be in running order again and make those inclined to work happy.

C. D. Smith and wife are made happy over the arrival of a baby girl at their home.

Two little boys of Mrs. Soles died very suddenly and were both buried the same day in one grave.

Mrs. C. Craven has returned from Bay City after the long serious illness of her sister, Mrs. B. Nichols.

Is THIRTY the Love? Deadline!

Dr. George A. Dorsey is a great scientist, and a great student of human nature. For many years he has studied human beings, not only in the civilized drawing rooms of the world, but in savage jungles, strange tropical lands, impenetrable Arctic countries. His recent book, "Why We Behave Like Human Beings," shows a startling insight into every process of the extraordinary mechanism we call man. Doctor Dorsey is married.

By GEORGE A. DORSEY,
Ph. D., LL. D.

"No man over thirty can fall in love." Isn't that just like a philosopher! But perhaps Doctor Dorsey never said it. Or perhaps he was merely trying to establish an alibi. I don't know the facts in his case, but I can see how a man married at thirty-one and cooled off at thirty-two, might counter his wife's "You don't love me any more!" with: "I try, but I just can't; I never did love you, only thought I did. No man over thirty can fall in love."

Why is there no fool like an old fool? Because he was a fool to fall at all, but the older he is the harder he falls.

Five years ago I met an old friend on the fast St. Louis-New York train. I had known him all my life, but never had I seen him so radiant to new clothes and shiny shoes. My random "You must be on your way to your wedding" made his old pink cheeks (he was only sixty-five) crimson, and caught in the act as if were, he could only stammer: "How did you know?"

I didn't know, but all that I know of human nature and of the significance of being born human led me to believe that this nice old widower hadn't blossomed out for nothing. I could think of nothing but love that could drive him out of his rut and rusty routine into fine raiment and an excess fare train to New York.

A few weeks later I met the bride. She could not have been more than sixty, but she was as radiant as had been her lover on his way to claim her. Today, after five years, they are as much in love with each other as ever, and note this point—his devotion is such as would tickle the vanity of the most exacting girl of eighteen married to a youth of twenty.

I said "note." It is bad enough to say that no man over thirty can fall in love, but to add that he cannot be come devoted to a woman is to suit the wound to human capacity.

More is known about what man can do than about what he can't. In fact, to put an arbitrary limit on man's capacity is to disclose the limits of one's understanding of human nature. An ordinary man of thirty can grow no taller; the pituitary gland normally sets limits on increase in stature after twenty-five. The exceptional man can grow taller after he is thirty; his pituitary has not yet limited his growth. Normally, men can fall in love till they are fifty or sixty, a few till they are sixty or seventy, but some reach such senility before they turn thirty there is no arbitrary or fixed limit to the functioning of the love impulse—certainly no arbitrary limit at thirty years of age.

The depth of a man's love for a woman could well be believed to be greater at forty than at thirty, or at fifty than at twenty. The usual fare-ups of youth have been well styled "puppy love"—playful, fleeting, hesitating, ephemeral, and too often dead dumb and blind. Even savages recognize the fact, and some do not consider a man fit for enduring, love and wholehearted devotion until he is thirty years of age. They think, and not without reason, that love cannot ripen until the man has matured.

Cannot fall in love? Speak for your self, Doctor Durant. Some can, I know. How do I know? I am reminded of the man who called up a lawyer to explain his trouble with the officers of the law. "But they can't put you in jail for that," replied the lawyer. "Maybe they can't; but I'm in!"

I'm in—for life, committed at the age of fifty-five. And as for "true devotion," perhaps I'm not the one to speak; but if forced to answer, would ask first: Just what do you mean by "devotion," Doctor Durant—if you really said it? Conjugal fidelity? Or such constancy for the welfare and happiness of a loved one as amounts to a zeal only to be surpassed if at all, by devotion to a helpless child? If the former, age has nothing to do with it; if the latter, I don't know how old a man would have to be to be able to become truly devoted to a woman.

Why don't I know? By the same token that prompted the old colored woman who, when asked how old a woman had to be before she could no longer fall in love, replied: "I dunno, honey; you'll have to ask somebody older 'n I is."

Fire Fanned by Rocks

Coal mine fires that rage underground long after all attempts to subdue them have failed, are kept alive by "breathing rocks." In the opinion of Prof. W. Spencer Hutchinson, metallurgist of the Massachusetts Institute of Technology. By "inhaling" air when the barometric pressure is high, he says in Popular Science Monthly, these porous rocks fan the underground fires.

Peculiar Winds

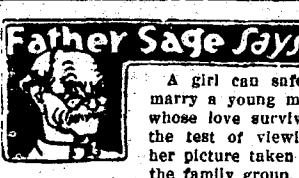

Thermic winds consist of alternate regions of ascending and descending air set in motion by differences of density due to different temperatures. These occur practically everywhere, because the earth's surface absorbs radiant heat from the sun and imparts it to air by conduction. Such winds are intensified by different ground colors, the presence of clouds, bodies of water, etc.

New and astonishing permanent Waves

The Gabrielen Oil System is a new and simple one hour process in which no clips or paper tubes are used. By this method it is easy to wave natural hair, also possible to secure astonishing results with bleached or dyed hair. The forcing of an ample amount of oil to the ends of the hair keeps it from becoming brittle. In waving bleached, dyed or white hair, and in cases where previous permanent waving has not been successful, the Gabrielen Oil treatment restores the hair to normal conditions.

We are now ready to give you one of these permanents. Call and let us give you one.
